### ABOUT HEALTHWORKS

We’re a boutique corporate health provider. This means we have the agility and adaptability to focus on your needs for your organisation and your employees.

We don’t do one-size-fits all formulas. Rather, we have a best practice selection of proven services and products which we can customise to fit your budget.

We pride ourselves on having the best customer service in the industry. We provide personalised support and advice to all our clients, whether you’re doing a full Wellness Program or just adding some of our services or publications to your existing program.

At the same time, we are large enough to service major corporations in multiple locations. Our clients are spread across Australia – and the world – our services and products are used by employees all over the globe.

### OUR PASSION

We are an energetic, passionate team of people, who believe wholeheartedly in the benefits of health and wellness at work.

As an organisation we are driven to improve the health of Australians through excellence in workplace health solutions. This vision is as strong as ever, and is shared by the whole Healthworks team.

We’ve all seen, and are inspired by, the powerful effects that even the most basic health improvements can have on someone’s life.
